

# Green Hydrogen Piping Engineer

Vienna, Vienna, Austria

- On-site work
- Full-time position
- Associate position

We are looking for a **Green Hydrogen Piping Engineer** at our headquarter.

## What you can expect?

- Calculate and select the product and plant piping solutions
- Create technical drawings for the piping in E3D
- Coordination of high value engineering centre tasks
- Review and release of designs under consideration of contractual and internal design requirements
- Close collaboration with colleagues in other departments and locations
- Coordinate the deliverables with other relevant disciplines (electrical, automation, civil, etc.)
- Participate in the preparation of testing and installation procedures
- Supporting the manufacturing, workshop testing, installation and commissioning of systems
- Taking the responsibility to coordinate piping engineering tasks within projects
- Supporting procurement in preparing the inquiries
- Optimizing design concepts in collaboration with process engineering

## What you bring on the table?

- Degree level qualification in a mechanical engineering discipline.
- Minimum five years of experience in piping engineering, background within the petrochemical industry is a plus.
- Knowledge about ISO/EN and ASME standards.
- Ability to consult with customers and notified bodies about technical design requirements is expected.
- Explain design solutions in an engaging manner
- Experience to supervise the piping installation and testing during the installation phase
- Strong communication, analytical and planning skills
- Solution/team/customer oriented with the confidence to act pro-actively
- Fluent in English. Another European language is an advantage
- Willingness to travel for 3 days per month on average

## What we offer

- To be part of a world class team enabling the growth of the green hydrogen economy and therefore meeting key environmental targets
- To work in a multicultural environment which fosters a culture of continuous development and inclusivity

- To operate in a flat hierarchy, open for challenge and debate with the advantage of a start-up culture within a global well-established firm
- To benefit from a hybrid working environment
- To enjoy the advantage to grow alongside the business and become an expert in this field with a chance for a further career step alongside the growth of the business
- To enjoy first class industry or on the job training
- Further benefits to be discussed at offer stage

In Austria we are legally obliged to announce at least a gross monthly salary of € 3.772,63 per month for this position. Depending on qualifications and professional experience we offer you a market-based salary.
