Sadok ZRIBI

Qualification/Validation Engineer at Opalia Recordati | Industrial Engineer | LSSGB©
Tunis, Tunisia

Summary

My name is Sadok ZRIBI I'm an industrial engineer and currently I'm Qualification/Validation engineer at Opalia Pharma Recordati group.

Experience

OPALIA RECORDATI

2 years

Qualification/Validation Engineer

July 2022 - Present (1 year 7 months)

Kalâat el-Andalous, Ariana Governorate, Tunisia

After a brilliant internship period in terms of process digitalization, I started then my first professional experience as a Qualification/Validation engineer at Oplia Pharma Recordati Group. My main activities are :

- Execution of CQ/FAT/SAT/IQ/OQ/PQ qualifications.
- Monitoring and validation of interventions on the COSWIN software.
- Application of GMP, FDA rules.
- Cleaning and process validation.
- Monitoring of performance indicators of the maintenance department.
- Participation in the resolution of machine operating problems and production problems.
- Drafting and application of the VMP validation master plan.

End of studies project

February 2022 - July 2022 (6 months)

Tunis, Tunisia

Passionate with ERP systems and mobile development. I started this internship with study of the existing flow, then I have detected an improvement plan on the flow of inputs at the production area, and finally I finished my internship with interfacing the ERP functions (Sage X3) with a mobile application that I have developed.
